

SpecSure® lifetime system warranty

SpecSure® is a unique 'off the shelf' warranty to end users that confirms British Gypsum proprietary systems will perform to the parameters published in our current literature for the period of time that the system is used for its originally designed purpose - a lifetime warranty.

The British Gypsum promise

SpecSure® is your guarantee that the system you have chosen:

- Comprises only the highest quality components, designed to work individually and together to deliver the specified level of performance
- Has the technical expertise and experience of the UK's leading drywall specialists behind it
- Has been tested in the company's UKAS approved fire, acoustic, and structural test laboratories
- Has been site tested to demonstrate installation integrity and simplicity
- Will be supported as required at every stage of the project by the UK's leading on and off-site technical support personnel
- Will perform to published parameters throughout the life of the system
- Will be repaired or replaced by British Gypsum in the unlikely event of system failure attributed to unsatisfactory product / system performance

To qualify for SpecSure®

- Specify and install British Gypsum systems in line with the recommendations in the current British Gypsum White Book, available to download from british-gypsum.com
- The systems must comprise only genuine branded British Gypsum components, tried and tested over many decades in some of the UK's most prestigious buildings. We cannot guarantee that the use of other manufacturers' components will meet our rigorous performance and quality standards when installed in our tested systems

SpecSure® - guaranteeing the future of drywall
For further information on **SpecSure®** system warranty, contact our Technical Advice Centre on 0115 945 6123, or email bgtechnical.enquiries@bpb.com. Alternatively, visit british-gypsum.com

All together covered

What you get with SpecSure®

The best components

All British Gypsum systems are precision engineered to provide the right level of performance for your building. They comprise high quality branded components – Gyproc plasterboards; Thistle plaster products; Gypframe metal products; British Gypsum specialist boards and British Gypsum ceiling products – developed specifically to work together to provide the widest range of market leading wall, ceiling, floor and encasement solutions in the UK. These individual components are manufactured to, and often surpass, all relevant British and European standards.

A range of systems designed for today's buildings

Our systems have been purpose-designed by experienced technicians to meet the challenging needs of today's demanding buildings. Whether it's straightforward domestic partitions or sophisticated **Shaftwall** systems for high-speed lift shafts - every aspect is taken into consideration.

Guaranteed performance

The systems are exhaustively tested at UKAS approved testing laboratories at East Leake in Leicestershire. Amongst the best-equipped and most advanced drywall testing facilities in Europe, where technicians are able to test full size panels for fire and acoustic performance and structural integrity up to 15 metres in height, the laboratories have more than 10,000 actual test and substantiation reports already available to underpin the performance of British Gypsum systems.

Full technical support

The Saint-Gobain Technical Academy is the leading UK authority on drywall systems, with a full team of designers, technicians, trainers and qualified technical advisors to help with every aspect of system design and installation, including:

- Full technical support at the design stage, including specification advice and provision of NBS clauses and CAD details if required
- On-site guidance throughout the installation process via our team of technical site specialists
- Off-site training of operatives and supervisory personnel at our purpose-built Saint-Gobain Technical Academy training centres

The backing of the world leader in gypsum products

British Gypsum is a recognised UK authority on drywall systems, with expertise and experience gained during more than a century of supporting the UK construction industry. It is part of Saint-Gobain, a world leader in design, production and distribution of construction materials, delivering innovative products and services with tomorrow in mind.

SpecSure® – system performance warranted for life
