Construction Detail

This drawing provides guidance to achieve indicative performance criteria for specific design conditions

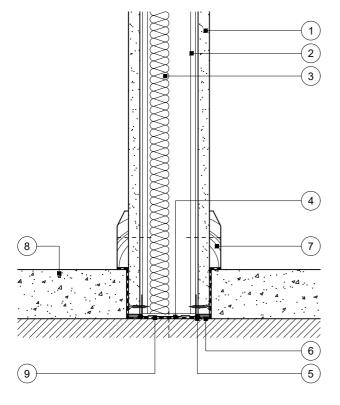

GypWall Single Frame and GypWall Single Frame Enhanced

- 1 One layer Gyproc plasterboard or Glasroc specialist board fixed with suitable British Gypsum screws at 300mm centres (200mm centres at external angles)
- 2 Gypframe 'C' studs at specified centres
- 3 Isover insulation where required
- 4 GypWall Single Frame: Gypframe Channel suitably fixed to floor at 600mm centres (in two lines staggered by 300mm for 94mm and 148mm channels). Deep Channel for heights between 4200mm and 8000mm or

Extra Deep Channel for heights over 8000mm

GypWall Single Frame Enhanced: Gypframe Deep Channel suitably fixed to floor at 600mm centres (in two lines staggered by 300mm for 94mm and 148mm channels). Extra Deep Channel for heights over 8000mm

- 5 Gyproc Sealant for optimum sound insulation
- 6 Gyproc jointing material bulk fill where gap exceeds 5mm
- 7 Indicative skirting
- 8 Indicative screed
- 9 Indicative DPM

Fire resistance BS EN 1364-1

30 or 60 minutes through partition subject to specification

Base with screed abutment

Partition fully installed prior to screed
