## **Construction Detail**

This drawing provides guidance to achieve indicative performance criteria for specific design conditions

## **GypWall Single Frame**

- Two layers Gyproc plasterboard or Glasroc specialist board fixed with suitable British Gypsum screws at 300mm centres (200mm centres at external angles)
- Gypframe 'C' studs at specified centres
- Isover insulation where required
- 4 Gypframe Channel suitably fixed to timber sole plate at 600mm centres (in two lines staggered by 300mm for 94mm and 148mm channels). Deep Channel for heights between 4200mm and 8000mm or Extra Deep Channel for heights over 8000mm
- Gyproc Sealant for optimum sound insulation
- Gyproc jointing material bulk fill where gap exceeds 5mm
- Indicative skirting
- 8 Indicative screed
- Indicative resilient laver
- 10 Channel width timber base plate suitably fixed to floor

## Important information

Fire resistance BS EN 1364-1

30 or 60 minutes through partition subject to specification

## Base with timber sole plate in screed
