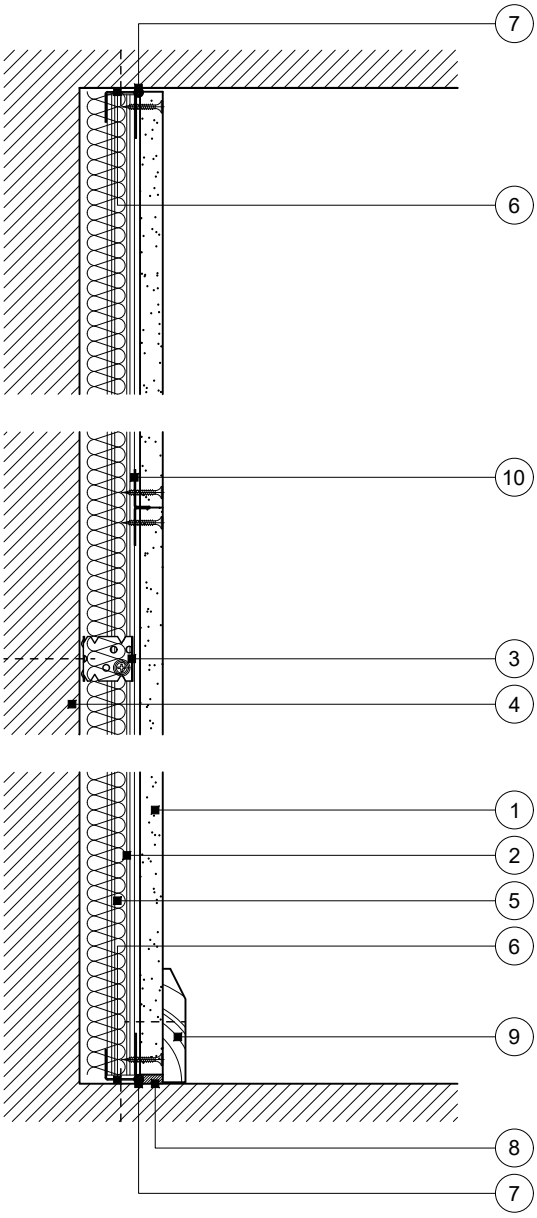
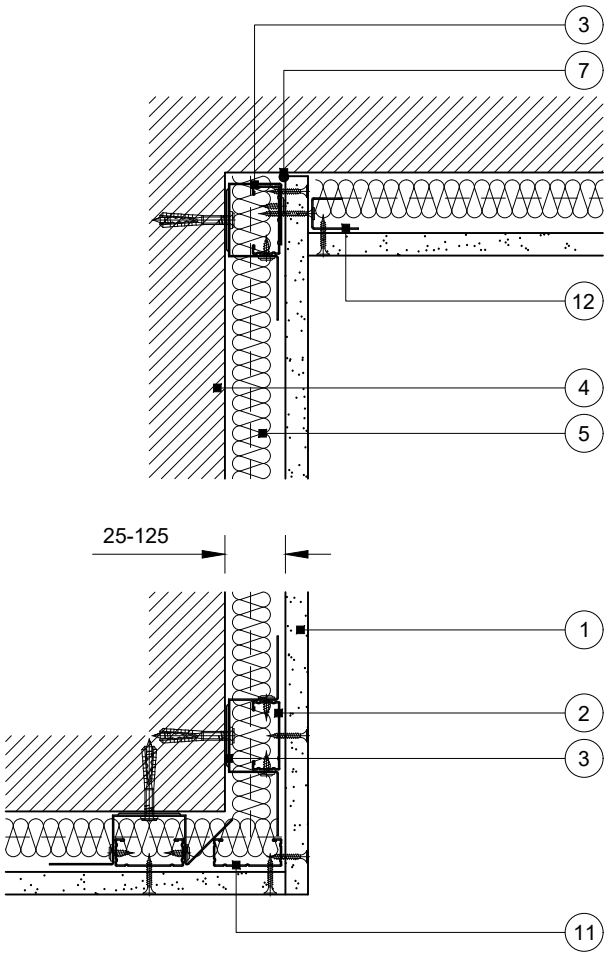
GypLyner Single

1 One layer Gyproc plasterboard or Glasroc specialist board fixed with suitable British Gypsum screws at 300mm centres (200mm centres at external angles)
2 Gypframe GL1 Lining Channels close to corners and at 600mm centres thereafter. Lining channels extended with Gypframe GL3 Channel Connectors (not shown)
3 Gypframe GL2 or GL9 Brackets at 800mm centres fixed to background with Gypframe GL11 GypLyner Anchors. Legs fixed to lining channel with suitable British Gypsum wafer head screws and bent back from lining channel face. For internal corners leg bent across lining channel face and fixed with suitable British Gypsum wafer head screws
4 Indicative masonry background
5 Isover insulation where required
6 Gypframe GL8 Track suitably fixed to floor/soffit at 600mm centres
7 Gyproc Sealant for optimum sound insulation
8 Gyproc jointing material bulk fill where gap exceeds 5mm
9 Indicative skirting
10 Gypframe GFT1 Fixing T or Gypframe GFS1 Fixing Strap progressively inserted between board edge and lining channels to support horizontal board joints
11 Additional Gypframe GL1 Lining Channel fixed to track at head and base with suitable British Gypsum wafer head screws
12 Gypframe GL8 Track fixed through board to lining channel with suitable British Gypsum screws at 600mm centres



Base and head



External and internal corners
