Construction Detail

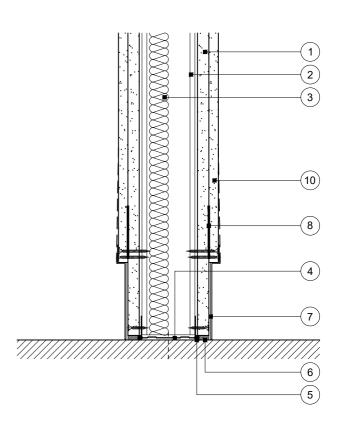

This drawing provides guidance to achieve indicative performance criteria for specific design conditions

GypWall Single Frame

- Inner layer 15mm Gyproc FireLine fixed with suitable British Gypsum screws at 300mm centres (200mm centres at external angles)
- Gypframe 'C' studs at specified centres
- Isover insulation where required
- Gypframe Channel suitably fixed to floor at 600mm centres (in two lines staggered by 300mm for 94mm and 148mm channels). Deep Channel for heights between 4200mm and 8000mm or Extra Deep Channel for heights over 8000mm
- Gyproc Sealant for optimum sound insulation
- Gyproc jointing material bulk fill where gap exceeds 5mm
- Indicative skirting or skirting trim
- Gypframe GFS1 Fixing Strap to receive perimeter board fixings
- Gyproc drywall edge bead
- 10 Sacrificial outer layer 12.5mm Gyproc WallBoard fixed with suitable British Gypsum screws at 300mm centres (200mm centres at external angles)

Important information

Fire resistance BS EN 1364-1

60 minutes through partition
