

## SpecSure® is a unique warranty that confirms British Gypsum proprietary systems<sup>1</sup> will perform as specified for the lifetime of the building<sup>2</sup>

### The British Gypsum promise

SpecSure® is our guarantee that the British Gypsum system you have chosen:

- Comprises only the highest quality components, designed to work together to deliver the specified level of performance
- Has been developed utilising the technical expertise and experience of the UK's leading drylining specialists
- Has been tested in UKAS accredited fire, acoustic and structural test laboratories. We regularly retest our products to ensure consistency of performance when incorporated within our systems
- Will be supported, on and off-site, as required at every stage of the project by the UK's largest team of drylining technical experts
- Will achieve every performance as claimed and will continue to do so throughout the life of the building
- Will be repaired or replaced by British Gypsum in the unlikely event of system performance failure attributed to a defective product

### To qualify for SpecSure®

Specify, install and finish British Gypsum systems in line with our recommendations provided in the current British Gypsum White Book or written guidance provided by our technical support team.

The systems must comprise only genuine British Gypsum and Isover components where specified. We cannot guarantee that the use of other manufacturers' components will meet our rigorous performance and quality standards when installed in our tested systems.

**Dean O'Sullivan**  
Managing Director

**By choosing a British Gypsum system developed, tested and supported by the UK's leading drylining specialists, you're protecting the future of your building and its users.**

<sup>1</sup> Proprietary systems and British Gypsum systems refers to our drylining systems that are based on British Gypsum Gypframe metal framing components. Timber framed walls and floors are not covered by our SpecSure® lifetime system warranty.

<sup>2</sup> Performance specification as detailed in our published literature or from formal written technical specifications issued by our technical support team.

## Only British Gypsum systems give buildings the protection of our SpecSure® lifetime warranty

## What you get with SpecSure®

### Guaranteed performance

The systems are purpose-designed by the UK's leading experts in drylining construction and supported by an ongoing product quality assurance scheme which includes regular testing at UKAS accredited testing laboratories. The Building Test Centre's facilities are amongst the best-equipped and most advanced drylining testing facilities in Europe, where full scale systems can be tested for fire and acoustic performance and structural integrity. We have more than 13,000 actual test and substantiation reports already available to underpin the performance of British Gypsum systems.

### The best components

All British Gypsum systems are precision engineered to provide the right level of performance for your building. They comprise high quality branded components designed specifically to work together to provide the widest range of wall, ceiling, floor and encasement solutions in the UK. We have rigorous checks in place to ensure ongoing quality control.

### Full technical support

British Gypsum is the leading UK authority on drylining systems, with a full team of designers, trainers and qualified technical advisors to help with every aspect of system design and installation, including:

- Full technical support at the design stage, including specification advice and provision of NBS clauses, BIM and CAD details if required
- On-site guidance available throughout the installation process via our team of technical site specialists
- On and off-site training of operatives, supervisory personnel, specifiers and main contractors

### The backing of the world leader in construction products

British Gypsum is the leading UK authority on drylining systems, with expertise and experience gained during more than a century of supporting the UK construction industry. British Gypsum is part of Saint-Gobain, a world leader in the design, production and distribution of construction materials, which creates great living places and improves daily life.
