Gyproc Habito F
Safety Data Sheet

Health & Safety

1. Identification of the substances / preparation and company

1.1 Product identifier: Gyproc Habito F

1.2 Relevant identified uses:
Gyproc plasterboards are used as internal linings in buildings.

1.3 Details of the supplier of the safety data sheet:
Supplier: British Gypsum
East Leake
Loughborough
Leicestershire
LE12 6HX
Telephone: 0115 945 6123
Email: bgtechnical.enquiries@bpb.com

This information reflects typical values and is not a product specification.

1.4 Emergency telephone number:
Telephone: 0115 945 6123

2. Hazards identification

THE MOST IMPORTANT HAZARDS ARE:

2.1 Classification of the substance or mixture:
This product is not classified as dangerous according to CLP.
Dust from mixing or sanding may irritate the respiratory system, skin and eyes.

3. Composition / information on ingredients

General composition: Calcium sulphate dihydrate encased in paper liners, natural constituents may include minor amounts of quartz. Small quantities of chopped glass fibre, microsilica and vermiculite may be added, with starch, foam and dispersants.

Any board may contain small quantities of chopped man-made mineral fibre and microsilica.

4. First aid measures

4.1 Description of first aid measures:

Eye contact
P305 / P313
In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Skin contact
P264
After contact with skin, wash immediately with plenty of soap and water.

Ingestion
P331
If swallowed, do not induce vomiting, seek medical advice immediately and show this document.
P301 / P330
If swallowed rinse mouth with water (only if the person is conscious).

Inhalation
P304 / P340
In case of accident by inhalation, remove casualty to fresh air and keep at rest.

General
Get medical attention if any symptoms persist.
Health & Safety

5. Fire fighting measures

5.1 Extinguishing media:
Suitable extinguishing media - water, foam, carbon dioxide or dry powder.

5.2 Special hazards arising from the substance or mixture:
The product does not pose a fire hazard. However, some packaging materials may burn.

5.3 Advice for fire fighters:
Use protective equipment appropriate for surrounding materials.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:
Not applicable.

7. Handling and storage

7.1 Precautions for safe handling:
Use - Minimise dust generation when sawing or sanding in poorly ventilated places. Avoid eye contact - see Section 8 for recommended personal protective equipment and Section 3 for hazards identification.

Plasterboards will not support body weight between rafters, joints or frame members.

Manual handling - Sheets of plasterboard can be unwieldy, use an appropriate lifting technique. The weight of each sheet can vary between products. For manual handling purposes assume the following:

Gyproc Habito F weights:

<table>
<thead>
<tr>
<th>Board thickness (mm)</th>
<th>Board width (mm)</th>
<th>Board length (mm)</th>
<th>Board weight (kg)</th>
<th>Pallet weight (tonnes)</th>
</tr>
</thead>
<tbody>
<tr>
<td>12.5</td>
<td>1200</td>
<td>2400</td>
<td>37</td>
<td>1.65</td>
</tr>
<tr>
<td></td>
<td>2500</td>
<td>39</td>
<td>1.68</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2700</td>
<td>42</td>
<td>1.63</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3000</td>
<td>46</td>
<td>1.71</td>
<td></td>
</tr>
</tbody>
</table>

NB - All details are approximate

Mechanical handling - The dimensions of the pallet vary depending on the product size. To avoid potentially overloading a lift truck, it is important that any effect on load centres is considered. The nominal weight of each palletised load is given within the weights table in this section of this document.

Plasterboards will not support body weight in between rafters, joints or frame members.

7.2 Conditions for safe storage, including any incompatibilities:

Storage - Store on pallets supplied in dry conditions. To maintain stability, place pallets on firm level ground, and ensure that stacks are both level and vertical.

NB - When working with individual boards, only work from a single pallet, not a stack.

Pallet stacking heights - The maximum stack heights on level concrete floors and vertical stacks are as follows:

<table>
<thead>
<tr>
<th>Board width (mm)</th>
<th>Board length (mm)</th>
<th>Pallet stack height (packs)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1200</td>
<td>2400, 2500, 2700, 3000</td>
<td>6</td>
</tr>
</tbody>
</table>

8. Exposure control / personal protection

8.1 Control parameters:

Workplace exposure limit:

<table>
<thead>
<tr>
<th>Substance</th>
<th>Total inhalable</th>
<th>Respirable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plaster</td>
<td>10mg/m³ 8hr TWA</td>
<td>4mg/m³ 8hr TWA</td>
</tr>
<tr>
<td>Quartz (silica)</td>
<td>-</td>
<td>0.1mg/m³ 8hr TWA</td>
</tr>
<tr>
<td>Man Made Mineral Fibres (MMMF)</td>
<td>5mg/m³ 8hr TWA (gravimetric method)</td>
<td>-</td>
</tr>
</tbody>
</table>

8.2 Exposure controls:

Personal protection

Respiratory - P284
Use only in well-ventilated areas.
Wear eye / face protection.
Face masks to EN 149 FFP2.

Skin - P303
Wear suitable protective clothing.

Eye - P305 / P313
Wear eye / face protection.
Eye protection to BS EN 166.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Appearance - Flat sheet boards in different widths and thicknesses, with a tapered edge.

10. Stability and reactivity

10.1 Reactivity:

No special physical conditions need to be avoided.
No specific restrictions regarding incompatible materials.
Health & Safety

11. Toxicology information

11.1 Information on toxicological effects:
No known toxicological effects.

12. Ecological information
Stable product with no known adverse environmental effects.

13. Disposal consideration

13.1 Waste treatment methods:
Gypsum, the main raw material for plasterboard, is a sulphate but is classified as non-hazardous. Waste from gypsum plasterboard products is fully recyclable.

For more information contact the British Gypsum Plasterboard Recycling Service Team on 0800 633 5040 or visit the British Gypsum website at british-gypsum.com

14. Transport information
Not classified as hazardous for transportation.

15. Regulatory information
Not classified under the CLP regulations.

16. Other information

Control of Substances Hazardous to Health Regulations
The Manual Handling Operations Regulations
HSE Guidance Note EH40: Workplace Exposure Limits
Gypsum Wastes – Environment Agency Information Sheet
The British Gypsum White Book
The British Gypsum Site Book
