Health & Safety

1. Identification of the substances / preparation and company

1.1 Product identifier: Gyproc Plank

1.2 Relevant identified uses:
Gyproc plasterboards are used as internal linings in buildings.

1.3 Details of the supplier of the safety data sheet:
Supplier          British Gypsum  
                    East Leake  
                    Loughborough  
                    Leicestershire  
                    LE12 6HX

Telephone         0115 945 6123 (+44 115 945 6123)
Email              bgtechnical.enquiries@bpb.com

This information reflects typical values and is not a product specification.

1.4 Emergency telephone number:
0115 945 6123 (+44 115 945 6123)
Opening hours: 8:30am - 5:00pm Monday - Friday (GMT)

NB - Language of the phone service is English.

2. Hazards identification

2.1 Classification of the article:
This product is not classified as hazardous according to CLP.

Dust from sawing or sanding may irritate the respiratory system, skin and eyes.

3. Composition / information on ingredients

General composition: Calcium sulphate dihydrate encased in paper liners, natural constituents may include minor amounts of quartz. Small quantities of chopped glass fibre, microsilica and vermiculite may be added, with starch, foam and dispersants.

Any board may contain small quantities of chopped man-made mineral fibre and microsilica.

4. First aid measures

4.1 Description of first aid measures:

Eye contact
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 - If eye irritation persists: Get medical advice/attention.

Skin contact
P264 - Wash hands thoroughly after handling.

Ingestion
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Inhalation
P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.

General
Get medical attention if any symptoms persist.

5. Fire fighting measures

5.1 Extinguishing media:
Suitable extinguishing media – water, foam, carbon dioxide or dry powder.

5.2 Special hazards arising from the article:
The product does not pose a fire hazard. However, some packaging materials may burn.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:
Not applicable.
7. Handling and storage

7.1 Precautions for safe handling:

Use – Minimise dust generation when sawing or sanding in poorly ventilated places. Avoid eye contact - see Section 8 for recommended personal protective equipment, and Section 3 for hazards identification.

Plasterboards will not support body weight in between rafters, joints or frame members.

Manual handling – Sheets of plasterboard can be unwieldy, use an appropriate lifting technique. The weight of each sheet can vary between products. For manual handling purposes assume the following:

<table>
<thead>
<tr>
<th>Board thickness mm</th>
<th>Board width mm</th>
<th>Board length mm</th>
<th>Board weight kg</th>
<th>Pallet weight tonnes</th>
</tr>
</thead>
<tbody>
<tr>
<td>19</td>
<td>600</td>
<td>2400</td>
<td>22.8</td>
<td>1.8</td>
</tr>
</tbody>
</table>

NB - All weights are approximate.

Mechanical handling – The dimensions of the pallet vary depending on the product size. To avoid potentially overloading a lift truck, it is important that any effect on load centres is considered. The nominal weight of each palletised load is given within the weights table in this section of this document.

7.2 Conditions for safe storage, including any incompatibilities:

Storage – Store on pallets supplied in dry conditions. To maintain stability, place pallets on firm level ground, and ensure that stacks are both level and vertical.

NB - When working with individual boards, only work from a single pallet, not a stack.

Pallet stacking heights

The maximum stack heights on level concrete on level concrete floors and vertical stacks are as follows:

<table>
<thead>
<tr>
<th>Board width mm</th>
<th>Board length mm</th>
<th>Pallet stack height packs</th>
</tr>
</thead>
<tbody>
<tr>
<td>600</td>
<td>2400</td>
<td>4</td>
</tr>
</tbody>
</table>

8. Exposure control / personal protection

8.2 Exposure controls:

Personal protection

Respiratory P284
Use only in well-ventilated areas.
Wear eye / face protection.
Face masks to EN 149 FFP2.

Skin P303
Wear suitable protective clothing.

Eye P305 / P313
Wear eye / face protection.
Eye protection to BS EN 166.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Appearance Flat sheet boards in different widths and thicknesses, with a square or tapered edge.

10. Stability and reactivity

10.1 Reactivity:

No special physical conditions need to be avoided. No specific restrictions regarding incompatible materials.

11. Toxicological information

11.1 Information on toxicological effects:

No known toxicological effects.

12. Ecological information

Stable product with no known adverse environmental effects.

13. Disposal consideration

13.1 Waste treatment methods:

Gypsum, the main raw material for plasterboard, is a sulphate but is classified as non-hazardous. Waste from gypsum plasterboard products is fully recyclable.

For more information contact the British Gypsum Plasterboard Recycling Service Team on 0800 633 5040 or visit the British Gypsum website at british-gypsum.com

14. Transport information

Not classified as hazardous for transportation.

15. Regulatory information

Not classified as hazardous under the CLP regulations.
