1. Identification of the substances / preparation and company

1.1 Product identifier: Gyproc QuickSand Joint Cement

1.2 Relevant identified uses of the substance or preparation and uses advised against

General purpose gypsum-based adhesives and jointing materials for use with British Gypsum dry lining systems.

1.3 Details of the supplier of the safety data sheet:

Supplier: British Gypsum
East Leake
Loughborough
Leicestershire
LE12 6HX

Telephone: 0115 945 6123
Email: bgtechnical.enquiries@bpb.com

This information reflects typical values and is not a product specification.

1.4 Emergency telephone number:

0115 945 6123 (+44 115 945 6123)

Opening hours: 8:30am - 5:00pm Monday - Friday (GMT)

NB - Language of the phone service is English.

2. Hazards identification

2.1 Classification of the substance or mixture:

This product is not classified as dangerous according to EC regulation 1272/2008 and its amendments.

Dust from mixing or sanding may irritate the respiratory system, skin and eyes.

2.2 Label elements:

Precautionary Statements:
P102 - Keep out of reach of children.
P281 - Use personal protective equipment as required.

3. Composition / information on ingredients

3.1 Mixtures

General composition: Gyproc QuickSand Joint Cement is limestone and mica based, with small amounts of vinyl polymers and workability aids.

4. First aid measures

4.1 Description of first aid measures:

**Eye contact**
P305 + P313 - If in eyes, get medical advice
P337 + P351 - If eye irritation persists, rinse cautiously with water for several minutes.

**Skin contact**
P264 - Wash hands thoroughly after handling.

**Ingestion**
P301 + P330 - If swallowed, rinse mouth with water (only if the person is conscious).

**Inhalation**
P261 - Avoid breathing dust.
P304 + P340 - If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P312 - Call a doctor, if you feel unwell.

**General**
Get medical attention if any symptoms persist.

5. Fire fighting measures

5.1 Extinguishing media:

The product does not pose a fire hazard. However, some packaging materials may burn.

Suitable extinguishing media – water, foam, carbon dioxide or dry powder.
6. Accidental release measures
6.1 Personal precautions, protective equipment and emergency procedures
Avoid creating dust – see Section 8 Exposure control/personal protection for recommended personal protective equipment.
Product can be mixed with water, avoid eye contact or prolonged, repeated contact with skin – see Section 2 Hazards identification.

6.2 Environmental precautions
Prevent product from contaminating drains.

7. Handling and storage
7.1 Precautions for safe handling:
Use – Minimise dust generation when opening bags, mixing or sanding products in poorly ventilated places. Avoid eye contact or prolonged or repeated contact with skin – see Section 8 Exposure control/personal protection and Section 2 Hazards identification.
Manual handling – Supplied in bags of 22.5kg – use appropriate lifting technique.
Mechanical handling – In order to maintain the stability of the palletised load, it is important that the lift truck fork length and centres are set to correctly support the load.

7.2 Conditions for safe storage, including any incompatibilities
Storage – Store in dry conditions. All powdered products can settle in transport. To maintain stability, place pallets on firm level ground. Do not stack more than one lift high.

8. Exposure control / personal protection
8.1 Exposure controls:
Workplace exposure limit

<th>Total inhalable</th>
<th>Respirable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Limestone</td>
<td>10mg/m³ 8hr TWA</td>
<td>4mg/m³ 8hr TWA</td>
</tr>
</tbody>
</table>

Personal protection
Respiratory - Use in a well ventilated area. Where practicable use engineering methods to control dust levels. If the exposure standards could be exceeded use a disposable face mask complying with EN 149 FFP2.
Skin - Wear appropriate clothing to protect against repeated or prolonged skin contact.
Eyes - If there is a risk of material entering the eye, wear eye protection to BS EN 166.

9. Physical and chemical properties
9.1 Information on basic physical and chemical properties:

12. Ecological information
Not applicable.

13. Disposal consideration
13.1 Waste treatment methods
Classified as ‘non-hazardous’ but should not be co-disposed with municipal waste. Dispose at an authorised landfill site in accordance with the Waste Management Licensing Regulations (see Section 16 – Other information).

14. Transport information
Not classified as hazardous for transportation.

15. Regulatory information
Not classified as dangerous according to EC regulation 1272/2008 and its amendments.
Health & Safety
