SAFETY DATA SHEET
Gyproc ThermaLine Super

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product name
Gyproc ThermaLine Super

1.2. Relevant identified uses of the substance or mixture and uses advised against
Identified uses
Thermal or sound insulating internal linings in buildings.

Uses advised against
No specific uses advised against are identified.

1.3. Details of the supplier of the safety data sheet
Supplier
British Gypsum
East Leake
Loughborough
Leicestershire
LE12 6HX
UK
T: +44 (0) 115 945 6123
E: bgtechnical.enquiries@bpb.com

1.4. Emergency telephone number
Emergency telephone
+44 (0) 115 945 6123
8:30am - 5:00pm Monday - Friday (GMT)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification (EC 1272/2008)
Physical hazards
Not Classified
Health hazards
Not Classified
Environmental hazards
Not Classified

Human health
Harmful dust may be released during cutting or grinding process. Dust may irritate the eyes and the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases. Sharp edges and corners may cause cuts and abrasions.

2.2. Label elements
Hazard statements
NC Not Classified

Labelling notes
As supplied, this product does not meet the requirements for labelling.

2.3. Other hazards
This product does not contain any substances classified as PBT or vPvB.
Phenolic foam: May form combustible dust concentrations in air. (St. Class 1) Avoid handling which leads to dust formation.
**SECTION 3: Composition/information on ingredients**

### 3.2. Mixtures

<table>
<thead>
<tr>
<th>Substance</th>

**Substance with National workplace exposure limits.**

**Classification**

- Not Classified

The full text for all hazard statements is displayed in Section 16.

**Composition comments**

Calcium sulphate dihydrate encased in paper liners with a thermal laminate bonded to the back. Natural plasterboard constituents may include clay and minor amounts of quartz. Small quantities of chopped glass fibre, microsilica and vermiculite may be added, with starch, foam and dispersants.

Gyproc ThermaLine Super includes a phenolic foam insulant.

**SECTION 4: First aid measures**

### 4.1. Description of first aid measures

**General information**

Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.

**Inhalation**

Due to the physical nature of this product, exposure by this route is unlikely. IF INHALED:

Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. If in doubt, get medical attention promptly.

**Ingestion**

Due to the physical nature of this product, it is unlikely that ingestion will occur. IF SWALLOWED:

Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. Never give anything by mouth to an unconscious person. If in doubt, get medical attention promptly.

**Skin contact**

Wash skin thoroughly with soap and water. Get medical attention if symptoms are severe or persist after washing.

**Eye contact**

Due to the physical nature of this product, exposure by this route is unlikely. IF IN EYES:

Remove any contact lenses and open eyelids wide apart. Rinse with water. Do not rub eye. Get medical attention if symptoms are severe or persist after washing.

**Protection of first aiders**

First aid personnel should wear appropriate protective equipment during any rescue.

### 4.2. Most important symptoms and effects, both acute and delayed

**General information**

The product is considered to be a low hazard under normal conditions of use. See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Gyproc ThermaLine Super

Inhalation
No specific symptoms known. Due to the physical nature of this product, exposure by this route is unlikely. Harmful dust may be released during cutting or grinding process. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.

Ingestion
No specific symptoms known. May cause discomfort. Harmful dust may be released during cutting or grinding process.

Skin contact
Prolonged or repeated contact with skin may cause irritation, redness and dermatitis. Sharp edges and corners may cause cuts and abrasions.

Eye contact
Particles in the eyes may cause irritation and smarting.

4.3. Indication of any immediate medical attention and special treatment needed

Notes for the doctor
Treat symptomatically.

Specific treatments
No special treatment required.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media
Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

Specific hazards
Dust may form explosive mixture with air. (St. Class 1) In case of a fire involving the product, firefighters shall be informed that phenolic foam is involved.

Hazardous combustion products
Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. Oxides of sulphur. Carbon dioxide (CO2). Carbon monoxide (CO).

5.3. Advice for firefighters

Protective actions during firefighting
Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out.

Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions
Provide adequate ventilation. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation of dust. Avoid contact with eyes. No smoking, sparks, flames or other sources of ignition near spillage. Wash thoroughly after dealing with a spillage.

6.2. Environmental precautions

Environmental precautions
The product is not expected to be hazardous to the environment. Insoluble in water. Aquatic toxicity is unlikely to occur. However, large or frequent spills may have hazardous effects on the environment. Collect spillage. Avoid discharge to the aquatic environment. Large Spillages: Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).

6.3. Methods and material for containment and cleaning up
Methods for cleaning up

Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Reuse or recycle products wherever possible. Approach the spillage from upwind. Collect spillage. Avoid generation and spreading of dust. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Do not empty into drains. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

6.4. Reference to other sections

For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions

Read and follow manufacturer’s recommendations. Do not handle until all safety precautions have been read and understood. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only non-sparking tools. Avoid handling which leads to dust formation. Avoid generation and spreading of dust. Prevent accumulation of dust. Avoid inhalation of dust. Use mechanical ventilation if there is a risk of handling causing formation of airborne dust.

Advice on general occupational hygiene

Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions

Store away from incompatible materials (see Section 10). Store in accordance with local regulations. Keep in a cool, well ventilated place. Store in a dry place. Do not store near heat sources or expose to high temperatures. Keep away from flammable and combustible materials.

Storage class

Unspecified storage.

7.3. Specific end use(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

Occupational exposure limits

Comments

Exposure to these ingredients as inhalable or respirable dust is minimal during normal use. Avoid handling which leads to dust formation.

Calcium sulfate dihydrate

Long-term exposure limit (8-hour TWA): WEL 10 mg/m³ inhalable dust
Long-term exposure limit (8-hour TWA): WEL 4 mg/m³ respirable dust

Quartz (SiO2)

Long-term exposure limit (8-hour TWA): WEL 6 mg/m³ inhalable dust
Long-term exposure limit (8-hour TWA): WEL 2.4 mg/m³ respirable dust
[Listed as: Silica, amorphous]

Quartz (SiO2)

Long-term exposure limit (8-hour TWA): WEL 0.1 mg/m³ respirable dust
[Listed as: Silica, respirable crystalline]

Glass fibre
Gyproc ThermaLine Super

Long-term exposure limit (8-hour TWA): WEL 5 mg/m³ 2 fibres/ml
Long-term exposure limit (8-hour TWA): WEL 10 mg/m³ inhalable dust
Long-term exposure limit (8-hour TWA): WEL 4 mg/m³ respirable dust

Formaldehyde
Long-term exposure limit (8-hour TWA): WEL 2 ppm 2.5 mg/m³
Short-term exposure limit (15-minute): WEL 2 ppm 2.5 mg/m³

Silicon dioxide
Long-term exposure limit (8-hour TWA): WEL 2.4 mg/m³ respirable dust
Long-term exposure limit (8-hour TWA): WEL 6 mg/m³ inhalable dust

WEL = Workplace Exposure Limit.

Calcium sulfate dihydrate (CAS: 7778-18-9)

DNEL
Workers - Inhalation; Long term systemic effects: 21.17 mg/m³
Workers - Inhalation; Short term systemic effects: 5082 mg/m³
General population - Inhalation; Long term systemic effects: 5.29 mg/m³
General population - Inhalation; Short term systemic effects: 3811 mg/m³
General population - Oral; Long term systemic effects: 1.52 mg/kg/day
General population - Oral; Short term systemic effects: 11.4 mg/kg/day

PNEC
STP; 100 mg/l

8.2. Exposure controls
Appropriate engineering controls
Provide adequate ventilation. Harmful dust may be released during cutting or grinding process. Use mechanical ventilation if there is a risk of handling causing formation of airborne dust. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection
Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Wear tight-fitting, dust-resistant, chemical splash goggles if airborne dust is generated. Personal protective equipment for eye and face protection should comply with European Standard EN166.

Hand protection
For prolonged or repeated use: Wear protective gloves. During cutting, grinding or sanding operations, wear protective gloves if handling sharp or rough edges.

Hygiene measures
Good personal hygiene procedures should be implemented. When using do not eat, drink or smoke.

Respiratory protection
Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Harmful dust may be released during cutting or grinding process. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit. Wear a suitable dust mask. Disposable filtering half mask respirators should comply with European Standard EN149 or EN405. Ensure all respiratory protective equipment is suitable for its intended use and is ‘CE’-marked. Check that the respirator fits tightly and the filter is changed regularly.

Environmental exposure controls
Avoid generation and spreading of dust.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance
Flat sheet boards in different thicknesses with a tapered edge.

Colour
Grey. / Pink.

Odour
Odourless.
Gyproc ThermaLine Super

Odour threshold  
No information available.

pH  
Not relevant.

Melting point  
Not determined.

Initial boiling point and range  
Not relevant.

Flash point  
Not relevant.

Evaporation rate  
Not relevant.

Evaporation factor  
Not relevant.

Flammability (solid, gas)  
Not determined.

Upper/lower flammability or explosive limits  
Not determined.

Other flammability  
Not determined.

Vapour pressure  
Not relevant.

Vapour density  
Not relevant.

Relative density  
Not determined.

Bulk density  
Not determined.

Solubility(ies)  
Insoluble in water.

Partition coefficient  
Not determined.

Auto-ignition temperature  
Not determined.

Decomposition Temperature  
Not determined.

Viscosity  
Not relevant.

Explosive properties  
Not considered to be explosive.

Oxidising properties  
Does not meet the criteria for classification as oxidising.

9.2. Other information
Other information  
No information required.

SECTION 10: Stability and reactivity

10.1. Reactivity
Reactivity  
There are no known reactivity hazards associated with this product.

10.2. Chemical stability
Stability  
Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.

10.3. Possibility of hazardous reactions
Possibility of hazardous reactions  
No potentially hazardous reactions known.

10.4. Conditions to avoid
Conditions to avoid  
Avoid generation and spreading of dust. Avoid exposure to high temperatures or direct sunlight. Keep away from heat, sparks and open flame.

10.5. Incompatible materials
## 10.6. Hazardous decomposition products

**Hazardous decomposition products**

Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Oxides of sulphur. Carbon monoxide (CO). Carbon dioxide (CO2).

### SECTION 11: Toxicological information

### General information

The product is considered to be a low hazard under normal conditions of use. No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

### Inhalation

No specific symptoms known. Harmful dust may be released during cutting or grinding process. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
Gyproc ThermaLine Super

Ingestion
No specific symptoms known. May cause discomfort. Harmful dust may be released during cutting or grinding process.

Skin contact
Prolonged or repeated contact with skin may cause irritation, redness and dermatitis. Sharp edges and corners may cause cuts and abrasions.

Eye contact
Particles in the eyes may cause irritation and smarting.

Route of exposure
Dermal Inhalation Harmful dust may be released during cutting or grinding process.

Target organs
No specific target organs known.

Toxicological information on ingredients.

Calcium sulfate dihydrate

Toxicological effects
The toxicity of this substance has been assessed during REACH registration. Not regarded as a health hazard under current legislation.

Acute toxicity - oral
Notes (oral LD₅₀)
LD₅₀ >2000 mg/kg, Oral, Rat

Acute toxicity - inhalation
Notes (inhalation LC₅₀)
LC₅₀ >3.26 mg/l, 4 hours, Dust/Mist Rat

Skin corrosion/irritation
Animal data
Dose: 0.5 g, 4 hours, Rabbit Erythema/eschar score: No erythema (0). Oedema score: No oedema (0). Not irritating.

Serious eye damage/irritation
Serious eye damage/irritation
Dose: 100 mg, , Rabbit Not irritating.

Skin sensitisation
Skin sensitisation
Buehler test - Guinea pig: Not sensitising.

Germ cell mutagenicity
Genotoxicity - in vitro
Bacterial reverse mutation test: Negative.

Genotoxicity - in vivo
DNA damage and/or repair: Negative.

Carcinogenicity
Carcinogenicity
Based on available data the classification criteria are not met.

Reproductive toxicity
Summary
This substance has no evidence of toxicity to reproduction.

Specific target organ toxicity - single exposure
STOT - single exposure
Not classified as a specific target organ toxicant after a single exposure.

Specific target organ toxicity - repeated exposure
STOT - repeated exposure
Not classified as a specific target organ toxicant after repeated exposure.

Aspiration hazard
Aspiration hazard
Not relevant.

SECTION 12: Ecological Information
Gyproc ThermaLine Super

Ecotoxicity

Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

12.1. Toxicity

Toxicity

The product is not believed to present a hazard due to its physical nature.

Acute aquatic toxicity

Summary

Based on available data the classification criteria are not met.

Chronic aquatic toxicity

Summary

Based on available data the classification criteria are not met.

Ecological information on ingredients.

Calcium sulfate dihydrate

Toxicity

Not toxic at limit of water solubility.

12.2. Persistence and degradability

Persistence and degradability

The product contains mainly inorganic substances which are not biodegradable.

Ecological information on ingredients.

Calcium sulfate dihydrate

Biodegradation

Substance is inorganic.

Not relevant.

12.3. Bioaccumulative potential

Bioaccumulative potential

No data available on bioaccumulation.

Partition coefficient

Not determined.

Ecological information on ingredients.

Calcium sulfate dihydrate

Bioaccumulative potential

Bioaccumulation is unlikely.

12.4. Mobility in soil

Mobility

The product is insoluble in water.

Ecological information on ingredients.

Calcium sulfate dihydrate

Mobility

The product has poor water-solubility.

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment

This product does not contain any substances classified as PBT or vPvB.

Ecological information on ingredients.

Calcium sulfate dihydrate

Results of PBT and vPvB assessment

This substance is not classified as PBT or vPvB according to current EU criteria.

12.6. Other adverse effects
Gyproc ThermaLine Super

Other adverse effects: None known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

**General information**

The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements.

**Disposal methods**

Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority.

SECTION 14: Transport information

**General**

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

**National regulations**

Health and Safety at Work etc. Act 1974 (as amended).

The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].

EH40/2005 Workplace exposure limits.
Gyproc ThermaLine Super

EU legislation

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways.
RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.
IATA: International Air Transport Association.
IMDG: International Maritime Dangerous Goods.
CAS: Chemical Abstracts Service.
ATE: Acute Toxicity Estimate.
LC₅₀: Lethal Concentration to 50 % of a test population.
LD₅₀: Lethal Dose to 50 % of a test population (Median Lethal Dose).
EC₅₀: 50% of maximal Effective Concentration.
PBT: Persistent, Bioaccumulative and Toxic substance.
vPvB: Very Persistent and Very Bioaccumulative.

General information

This SDS is not mandated under REACH Regulation (EC) No 1907/2006 and is provided for information only. As supplied, this product does not meet the requirements for labelling.

Training advice

Read and follow manufacturer's recommendations. Only trained personnel should use this material.
