

Ceilings

Arteco ceiling products offer performance and flexibility, allowing the designer to create simply stunning ceilings that complement and enhance the interior building environment.

With their eye-catching designs, the Arteco tile, plank and board ranges combine high levels of acoustic performance with the durability and fire safety of gypsum. They are ideal for all types of buildings, from schools, hospitals and hotels, to modern office and residential developments.

Casoprano

With six appealing designs - smooth, textured or perforated - Casoprano is an adaptable range of pre-finished white gypsum suspended ceiling tiles.

Durable choice

Casoprano, manufactured from gypsum board, is the durable alternative to wet felted mineral fibre tiles. It combines the proven fire safety and strength of gypsum with a choice of contemporary decorative finishes designed for a wide range of buildings and applications.

Improved speech clarity

Casoprano tiles can be used to give high levels of speech clarity in classrooms, where the acoustic environment has a significant impact on the performance of the teacher and student.

Description

A range of pre-finished white gypsum tiles in a choice of smooth, textured or perforated finishes.

For installation guidance, see the British Gypsum Ceilings Installation Guide.

Gyptone - tiles and planks

The Gyptone range of suspended ceiling tiles and planks provide interior designers with an innovative and exciting combination of design and performance, and with limitless options for building interiors.

Acoustics and aesthetics

Gyptone unites distinctive designs, gypsum's durability and superb sound absorption characteristics. It also offers easy maintenance and enables redecoration without affecting acoustic performance. With four attractive geometric patterns - SIXTO, QUATTRO, POINT and LINE - which can be used in conjunction with unperforated BASE, Gyptone's range gives designers and users an ideal acoustic environment with exciting aesthetic appeal.

Description

Pre-finished geometric design, perforated high performance tiles and planks with integral sound absorbent tissue backing.

For installation guidance, see the British Gypsum Ceilings Installation Guide.

For more information please refer to the British Gypsum website www.british-gypsum.com

Gyptone - boards

The Gyptone range of boards brings a new creative freedom to ceiling and wall lining design, whether the concept calls for sweeping yet elegant links between open areas, or for a simple, natural transition between rooms. Gyptone's attractive boards for flat or curved surfaces can be decorated and redecorated without affecting acoustic performance, and add gypsum's fire safety and durability for total aesthetic appeal.

The sound choice

With their stylish perforated patterns and special acoustic tissue bonded to the back face, Gyptone boards bring a feeling of space to offices, shops, restaurants and other buildings where acoustic ambience is important.

Description

Geometric design, perforated gypsum boards with an integral sound absorbent tissue backing. Provide jointless finish ready for decoration on site.

For installation guidance, see the British Gypsum Ceilings Installation Guide.

For more information please refer to the British Gypsum website www.british-gypsum.com

Rigitone

Rigitone perforated acoustic gypsum boards are designed to inspire architects with their exciting scope for seamless patterned ceiling design. A jointless ceiling system gives the aesthetic satisfaction of an homogenous surface to enhance the effect of both regular and scattered patterns. In addition, acoustic performance can be controlled by choice of surface designs, resulting in interiors with truly impressive ambience.

Seamless designs and acoustic performance

Rigitone perforated boards, with their special acoustic tissue backing, are ideal for offices, shops, restaurants and other buildings where acoustic ambience is as important as looks. The gypsum plasterboard base gives Rigitone inherent durability, whilst the boards can be redecorated time and time again without affecting acoustic performance.

Description

Gypsum boards, perforated with regular or random patterns, with sound absorbent tissue backing. Provide monolithic appearance ready for decoration on site.

For installation guidance, see the British Gypsum Ceilings Installation Guide.

For more information please refer to the British Gypsum website www.british-gypsum.com

Gyprex

Gyprex is a high performance and easy maintenance vinyl faced gypsum tile that offers outstanding value for money. Its wipe-clean, long wearing surface makes it ideal for food preparation and other hygienic areas.

Clean and easy

Available in a choice of stylish finishes, Gyprex tiles are exceptionally thin and light - just 8mm thick - making them easy to cut and install. Gyprex tiles offer high performance too, being able to accommodate humidity levels up to 90% RH.

Gyprex BIO has an integral active Biocide, preventing fungal and bacterial growth and reducing the risk of contamination and infection - particularly important in hospitals and hygienic areas of buildings.

Description

A vinyl faced, wipe-clean gypsum tile particularly suitable for use in hygienic areas.

For installation guidance, see the British Gypsum Ceilings Installation Guide.
